Warm up Session A, 10:00 - 10:30 am,

Warm up Session B, 10:30 - 11:00 am,

Warm up Session C, 11:00 - 11:30 am,

Warm up Session D, 11:30 - 12:00 pm,

Start 12:00 pm, Approximate finish 3:52 pm

While the Heat are making every effort to supply times for all non distance sessions there is a distinct possibility that we may need to call on visiting parents to help out. I would hope that some of the larger teams could communicate with their parents the value of volunteering and how much their help would be appreciated.

Mask Bags

All coaches will be issued a box of plastic bags. They in turn will make sure each of their athletes have one issued to them. The athlete will use this bag to place their mask in while they swim. This is an effort to minimize contact of masks with high traffic areas around the starting area.

10 lane

Due to the demand for meets in the southwest many athletes have been entered in this meet. To make the session timelines acceptable we will be swimming athletes in 10 lanes for the identified sessions above.

Family and Team area: Families are welcome to set up their tents outside the facility as needed. Face coverings are recommended. There can be no general seating inside the facility.
required at all times during the event

Spectator Viewing area: Spectators should remain socially distant and wear masks while in the facility. Spectators will enter through the main entrance and wait in the staging area 1 under the shade shelters until the heat the swimmer is in. There will be pedestrian barriers in place to guide spectators along the staging area pathways. When the athletes heat is about to start the spectator will move to the viewing area. Once the athlete's swim is complete the spectator will leave the viewing area through the west gate.

Coaches/Admin/Athlete area (CAA): All CAA in the CAA area will wear face coverings at all times. Athletes should remain socially distant. Athletes will enter the athlete staging area through the west gate. They will prepare for their race in the grassy area under the scoreboard. They will enter the ready area lanes which are separated into 8-10 socially distant lanes 1 heat prior to their heat. They will enter the block area for their heat where they will unmask and approach the blocks. Once their race is complete they will immediately mask up and either go to the warm down lanes or exit the facility through the south gate.

After their warm down the athlete will again put their mask on and leave the staging area through the south gate.

Coaches will be provided with coaches tables where they will occupy each table with a maximum of two coaches at a time. We have set out 9 tables to reflect the 9 teams with significantly larger entries. That does not mean though that the other teams cannot have tables. They will just have to be placed back from the pool side and remain socially distant from the other tables.

Lap Counters: Counters will enter the counting area just prior to the start of their swimmers race. Upon the completion of their swimmers race they will disinfect the lap counter with the provided disinfectant and leave the counting area.

Changing Area: Athletes should plan to arrive at the facility wearing their competition suits. There will be no changing areas in the bathroom facilities.

1650 and 500 Freestyle Check in: Due to the numbers of swimmers in these events the athletes will not be checking in individually. Each athlete will check in with their coach and the coach will do the official check in at the clerk of course table located in the Admin area.

Facility Layout

APPROVED
Alan Kircher, Deputy
Building Official

Remember our goal is to provide a competitive racing environment for our athletes while maintaining safe conditions for all Athletes, Coaches and Families. We all need to work together and respect the rules of the facility to ensure we can continue to provide these opportunities.
